+ BE YOURSELF – THAT'S HOW WE WANT YOU TO BE +

At Anexia, we take responsibility for all the **challenges of the digital world** – each and every day. That's because we see ourselves as the **"Digital Transformation Engine".** And how do we succeed in this mission? It's simple. We are a family of facilitators with innovative ideas. We're capable of, want to, and allowed to make things happen. That's what makes us so unique! Do you want to be a part of our digital revolution and make history with us? **#joinourrevolution**

SENIOR PYTHON DEVELOPER (M/W/D)

Klagenfurt, Vienna, Graz, Karlsruhe, Remote | full time

You are passionate and enthusiastic about innovative technology. You are committed, enjoy working independently and have a high level of quality awareness. Then this is the right position for you.

#PROFILE

- You work project-based across the full development lifecycle - from planning, architecture, and design to development and deployment, in an agile, interdisciplinary team of developers and network engineers
- You take responsibility for software systems that are essential for the operation of our global network (e.g. LIR management, DDoS mitigation, RPKI, or geolocation services), and develop them in close coordination with the respective stakeholders
- You integrate various backend systems (provisioning, monitoring, billing, etc.) and thereby improve the user experience of the Anexia Cloud
- You expand our extensive monitoring, ensure the smooth operation of production systems, identify and resolve irregularities early and proactively
- You support our junior developers and participate in code reviews

#WANTED

- Excellent knowledge of Python as well as several years of professional experience in this area
- Knowledge of automation frameworks such as Ansible or Puppet
- Excellent systemic thinking, understanding of dependencies and relationships within a comprehensive system landscape
- Solid knowledge of building and maintaining CI/CD pipelines in conjunction with software testing and/or deployment logic
- Understanding of agile development workflows based on git
- Experience in system administration of Linux systems and container technologies such as Docker, podman, or Kubernetes is advantageous
- Excellent written and spoken German and English skills

#REWARD

Anexia grew up as a family, and with our growth strategy, we intend to keep it that way. We like to take responsibility, respect one another, and we know that we can achieve whatever we put our minds to. We look after Anexia, and Anexia looks after us. Enthusiasm, experience, and competence count, so you can expect a fair salary and numerous benefits.

salary range

min. 63.000€

Our benefits

We are more than just a workplace. Therefore, we offer our employees many benefits (which partly depend on your position and location): good transport connections and flexible working hours. Period. Not to mention further training, a

mentoring program, free parking, a mobile phone and notebook, snacks and drinks, company cars, employee events, a fun corner, ...
