

+ BE YOURSELF – BECAUSE THAT’S HOW WE WANT YOU TO +

At Anexia, we take responsibility for all the **challenges of the digital world** – each and every day. That’s because we see ourselves as the **“Digital Transformation Engine”**. And how do we succeed in this mission? It’s simple. We are a family of facilitators with innovative ideas. We’re capable of, want to, and allowed to make things happen. That’s what makes us so unique! Do you want to be a part of our digital revolution and make history with us? **#joinourrevolution**

## SENIOR FULLSTACK DEVELOPER (M/W/D) - CLOUD MANAGEMENT PLATFORM

Klagenfurt, Vienna, Graz, Karlsruhe, Remote | full time

You think outside the box and bring passion and enthusiasm for new technologies and trends. Whether backend or frontend, you feel confident working in both worlds and enjoy focusing on modern frontend development. With a strong sense of quality, a creative approach to problem-solving, and a hands-on mindset, you design powerful and sustainable solutions. You work in a structured and self-reliant manner while also valuing teamwork? Then we look forward to meeting you!

### #PROFILE

- Drive the architecture, technical design, and implementation of the web frontend of our cloud management platform “Anexia Engine”
- Collaborate closely with Product Owners and cross-functional teams to conceptualize and deliver new features
- Taking independent ownership of complex development tasks
- Developing and optimizing high-performance microservices and the platform with a focus on innovative cloud services
- Maintaining, coordinating, and optimizing existing solutions and system landscapes
- Analyzing issues, conducting code reviews and monitoring platform performance

## #WANTED

---

- Several years of experience in web application development
- In-depth knowledge of Vue.js as well as very good knowledge of HTML5, CSS3, and JavaScript/TypeScript
- Experience with modern build and tooling systems (e.g. Vite, Webpack, npm/yarn, ESLint) as well as component-based development and state management solutions (e.g. Pinia, Reduc, Vuex)
- Very good knowledge of object-oriented PHP programming and experience with PHP frameworks such as Laravel, Phalcon, or Zend
- Experience working with APIs (REST, gRPC, SOAP) and a solid understanding of relational databases with high performance and persistence requirements
- Experience with scalable, secure cloud applications and cloud-centric enterprise architectures across applications as well as all infrastructure and security domains
- Knowledge of Linux and understanding of the interaction of network, server applications and distributed systems
- Excellent written and spoken German and English skills

---

## #REWARD

---

Anexia grew up as a family, and with our growth strategy, we intend to keep it that way. We like to take responsibility, respect one another, and we know that we can achieve whatever we put our minds to. We look after Anexia, and Anexia looks after us. Enthusiasm, experience, and competence count, so you can expect a fair salary and numerous benefits.

### salary range

---

min. 55.356€

## Our benefits

We are more than just a workplace. Therefore, we offer our employees many benefits (which partly depend on your position and location): good transport connections and flexible working hours. Period. Not to mention further training, a mentoring program, free parking, a mobile phone and notebook, snacks and drinks, company cars, employee events, a fun corner, ...
