+ BE YOURSELF – BECAUSE THAT'S HOW WE WANT YOU TO +

At Anexia, we take responsibility for all the **challenges of the digital world** – each and every day. That's because we see ourselves as the **"Digital Transformation Engine".** And how do we succeed in this mission? It's simple. We are a family of facilitators with innovative ideas. We're capable of, want to, and allowed to make things happen. That's what makes us so unique! Do you want to be a part of our digital revolution and make history with us? **#joinourrevolution**

BIG DATA ENGINEER - CLOUD SERVICES (M/W/D)

Vienna, Klagenfurt, Graz, Karlsruhe, Remote | full time

Are you driven by passion for and have a keen interest in innovative technology, cloud services and Big Data? Are you a dedicated person who enjoys working independently and is highly quality-conscious? If so, you are the right person for this position.

#PROFILE

With our **cloud management platform** "Anexia Engine," we offer our customers various self-administration cloud services. Starting with basic services such as domains and DNS, all the way through to virtual servers and big data environment solutions. In this position, you will **develop concepts for modern open source search and "Big Data" solutions** for the Anexia Cloud. Your focus will be on the conception, development and operation (DevOps) of the **Big Data systems in the Anexia Cloud.** You will also work with open source technologies like Kafka, ElasticSearch, Cassandra, Druid, Hadoop, Spark and be responsible for integrating these systems into the existing Anexia ecosystem. We work in a distributed and agile manner, relying on individual responsibility and teamwork. Your input and ideas contribute to our shared success and are important in the challenging and multifaceted tasks.

#WANTED

—

- Skilled use of open source technologies such as Kafka, ElasticSearch, Dadoop, etc.
- In-Depth knowledge of different database concepts (RDBMS, NoSQL, TSDB, Big Table)
- Experience as a software developer in at least one of the common programming languages in the "big data" environment (Java, Go, Phyton, Scala)
- Secure handling of Linux
- Experience with Docker or Kubernetes
- Good spoken and written German and English

#REWARD

—

Anexia grew up as a family, and with our growth strategy, we intend to keep it that way. We like to take responsibility, respect one another, and we know that we can achieve whatever we put our minds to. We look after Anexia, and Anexia looks after us. Enthusiasm, experience, and competence count, so you can expect a fair salary and numerous benefits.

salary range

min. 42.000€

Our benefits

We are more than just a workplace. Therefore, we offer our employees many benefits (which partly depend on your position and location): good transport connections and flexible working hours. Period. Not to mention further training, a mentoring program, free parking, a mobile phone and notebook , snacks and drinks, company cars, employee events, a fun corner, ...

#ABOUT
—

Anexia is offering high-quality and individual cloud- and managed hosting solutions as well as individual software and app development. Anexia is also running its own, independent data centers.
