+ BE YOURSELF – BECAUSE THAT'S HOW WE WANT YOU TO +

At Anexia, we take responsibility for all the **challenges of the digital world** – each and every day. That's because we see ourselves as the **"Digital Transformation Engine".** And how do we succeed in this mission? It's simple. We are a family of facilitators with innovative ideas. We're capable of, want to, and allowed to make things happen. That's what makes us so unique! Do you want to be a part of our digital revolution and make history with us? **#joinourrevolution**

SENIOR NETWORK AUTOMATION ENGINEER (M/W/D)

Vienna, Klagenfurt, Graz, Kralsruhe, Remote | full time

Your ambition is to be at the forefront of technology and you always strive for the best solution? You have a systematic and solution-oriented way of working, enjoy working in a team, and convince with your hands-on mentality? Then this is the right position for you!

#PROFILE

- You and your team are responsible for the further development of our global network, consisting of over 100 locations worldwide
- You work independently and according to your preferences on a project basis on the development, improvement, and future-proofing of the various components of our network stack:
  1. Core network
  2. Automation workflows
  3. Network-related services (e.g. DDoS mitigation, RPKI)
  4. Monitoring and alerting
- You define and document standards for network setups or workflows
- You are the contact person for complex tasks or troubleshooting
- You work closely with a team of network architects, network and software engineers

#WANTED

- Solid and proven network expertise as well as several years of professional experience in the service provider environment
- Understanding complex network topologies and technical relationships beyond the boundaries of your own area of expertise (compute, storage, etc.) is easy for you
- Automation, its design, and implementation are your thing
- Knowledge of the feature set and troubleshooting capabilities on network platforms from Juniper, Arista, Cisco, etc.
- Experience with routing (BGP, ISIS), control plane (RSVP, EVPN), and related data plane technologies (legacy IP, IPv6, MPLS, VXLAN)
- Basic knowledge of programming languages such as Python, Go, Ansible and git
- Experience in using Linux system tools and common monitoring tools
- Very good written and spoken German and English skills

#REWARD

Anexia grew up as a family, and with our growth strategy, we intend to keep it that way. We like to take responsibility, respect one another, and we know that we can achieve whatever we put our minds to. We look after Anexia, and Anexia looks after us. Enthusiasm, experience, and competence count, so you can expect a fair salary and numerous benefits.

salary range

min. 63.000€

Our benefits

We are more than just a workplace. Therefore, we offer our employees many benefits (which partly depend on your position and location): good transport connections and flexible working hours. Period. Not to mention further training, a mentoring program, free parking, a mobile phone and notebook, snacks and drinks, company cars, employee events, a fun corner, ...
