

+ BE YOURSELF – BECAUSE THAT’S HOW WE WANT YOU TO +

At Anexia, we take responsibility for all the **challenges of the digital world** – each and every day. That’s because we see ourselves as the **“Digital Transformation Engine”**. And how do we succeed in this mission? It’s simple. We are a family of facilitators with innovative ideas. We’re capable of, want to, and allowed to make things happen. That’s what makes us so unique! Do you want to be a part of our digital revolution and make history with us? **#joinourrevolution**

SENIOR SOFTWARE ENGINEER PHP - CLOUD MANAGEMENT PLATFORM (M/W/D)

Vienna, Graz, Klagenfurt, Karlsruhe, Remote | full time

You think outside the box and bring **passion and enthusiasm for new technologies** and trends. You are a communicative person, a team player and convince with your independent, goal-oriented and self-reliant way of working. Then this is the right position for you!

#PROFILE

- Further development of the Cloud Management Platform “Anexia Engine” with a focus on innovative cloud services
- Development and optimization of microservices with an emphasis on performance
- Automation in key areas such as networking and storage
- Designing and implementing new services in the big data domain
- Orchestrating and enhancing underlying systems
- Independently tackling complex tasks while collaborating effectively within the team

#WANTED

- Completed technical education (HTL, university, FH) or equivalent training with relevant professional experience
- Several years sound experience in PHP (OOP)
- Experience in application development, engineering, infrastructure and architecture in cloud computing or a related industry where scalability, reliability and security are paramount
- Experience in contemporary frameworks (MVC) such as Zend, Laravel, Phalcon, etc.
- Familiar with relational databases with high performance and persistence requirements
- Expertise in cloud-centric enterprise architecture across applications and all infrastructure and security domains
- Experience in ORM/persistence frameworks, such as Doctrine, advantageous
- Familiar with APIs (RESTful, gRPC, SOAP)
- Experience in the programming language “Go” (high-performant microservices) advantageous
- Knowledge of Linux and understanding of the interaction of network, server applications and distributed systems
- Excellent written and spoken German and English skills

#REWARD

Anexia grew up as a family, and with our growth strategy, we intend to keep it that way. We like to take responsibility, respect one another, and we know that we can achieve whatever we put our minds to. We look after Anexia, and Anexia looks after us. Enthusiasm, experience, and competence count, so you can expect a fair salary and numerous benefits.

salary range

min. 57.000€

Our benefits

We are more than just a workplace. Therefore, we offer our employees many benefits (which partly depend on your position and location): good transport connections and flexible working hours. Period. Not to mention further training, a mentoring program, free parking, a mobile phone and notebook, snacks and drinks, company cars, employee events, a fun corner, ...
