

+ BE YOURSELF – BECAUSE THAT’S HOW WE WANT YOU TO +

At Anexia, we take responsibility for all the **challenges of the digital world** – each and every day. That’s because we see ourselves as the **“Digital Transformation Engine”**. And how do we succeed in this mission? It’s simple. We are a family of facilitators with innovative ideas. We’re capable of, want to, and allowed to make things happen. That’s what makes us so unique! Do you want to be a part of our digital revolution and make history with us? **#joinourrevolution**

(SENIOR) LINUX SYSTEM ENGINEER - NETCUP PLATFORM (M/W/D)

Karlsruhe | full time

Do you think in terms of systems rather than individual tickets? Do you want to not only fix issues but also permanently eliminate their root causes, set standards, and see complex technical problems through to the end? Then join us at netcup as a (Senior) Linux System Administrator / Site Reliability Engineer (SRE) (m/f/d) and help shape something new.

At netcup, we’re building the Platform department: a technical team that bridges infrastructure and operations, responsible for stability, further development, and in-depth root cause analysis. This role offers you the chance to help shape a department from the very beginning. Does this sound like you? Then we’d love to hear from you!

#PROFILE

- In-depth technical analysis and long-term root cause resolution for complex problems
- Management of complex incidents that go beyond day-to-day operations
- Supporting our 3rd-level service desk with escalations
- Technical design and support during the development of new products and projects
- Development of automations and internal tools
- Creating technical standards and runbooks for complex issues
- Planning and executing complex maintenance tasks, including stakeholder coordination

- Evaluating and implementing new solutions to improve our platform
-

#WANTED

- Completed IT training or degree and/or professional experience in comparable positions
 - Advanced knowledge of administering common Linux distributions (particularly Debian/Ubuntu, RHEL-based distributions such as AlmaLinux/Rocky Linux, etc.)
 - Very strong troubleshooting, documentation, and analytical skills
 - Good understanding of networks (troubleshooting) as well as solid experience with configuration management (e.g., Puppet) and scripting (Bash, Python)
 - Systematic and analytical thinking, as well as the ability to work independently and focus on solutions
 - Ability to work well in a team and strong communication skills
 - Excellent German and good English skills
-

#REWARD

Anexia grew up as a family, and with our growth strategy, we intend to keep it that way. We like to take responsibility, respect one another, and we know that we can achieve whatever we put our minds to. We look after Anexia, and Anexia looks after us. Enthusiasm, experience, and competence count, so you can expect a fair salary and numerous benefits.

salary range

Our benefits

We are more than just a workplace. Therefore, we offer our employees many benefits (which partly depend on your position and location): good transport connections and flexible working hours. Period. Not to mention further training, a mentoring program, free parking, a mobile phone and notebook, snacks and drinks, company cars, employee events, a fun corner, ...
