

+ BE YOURSELF – BECAUSE THAT’S HOW WE WANT YOU TO +

At Anexia, we take responsibility for all the **challenges of the digital world** – each and every day. That’s because we see ourselves as the **“Digital Transformation Engine”**. And how do we succeed in this mission? It’s simple. We are a family of facilitators with innovative ideas. We’re capable of, want to, and allowed to make things happen. That’s what makes us so unique! Do you want to be a part of our digital revolution and make history with us? **#joinourrevolution**

## SOFTWARE DEVELOPER PHP (M/W/D)

Klagenfurt, Vienna, Graz, Karlsruhe, Remote | full time, part time

Software development is in your blood. You are excited to see how your software contributes to making things even faster, easier, and more accessible for thousands of customers. Are you motivated and a team player? Then this is the perfect position for you at Netcup - **and what you don't know yet, you'll learn with us.**

### #PROFILE

In this position, you will contribute to the ongoing development of our internal customer management tool (CRM) and the customer portal of the netcup brand. You'll work both independently and as part of a collaborative team on exciting projects and can imagine specializing in one or more of the following areas:

#### Frontend Development

- Enhancing our Customer Control Panel:  
<https://www.customercontrolpanel.de/>

- Further development of our internal CRM tool

#### Backend Development / Domain Management

- Integration of internal and external APIs
- Automation of internal processes
- Refactoring legacy code into clean, maintainable code

- Developing microservices with a focus on performance

Our Tech Stack

### **Backend**

- PHP (7.3+), PHPUnit for testing
- SQL (MariaDB)

### **Frontend**

- HTML5, JavaScript (jQuery), Bootstrap

### **Project Management & Documentation**

- Jira and Confluence

### **Development Environment**

- PhpStorm

### **Testing Systems**

- Bash, Ansible, Docker
- 

## **#WANTED**

---

- Strong experience with PHP and object-oriented programming (OOP)
- Proficiency in core frontend technologies such as JavaScript, HTML, and CSS
- Practical experience working with high-performance, persistent relational databases
- Solid experience with at least one relevant framework in your area of expertise
- Confident working with APIs (REST, GraphQL)

- Experience with RESTful and SOAP APIs
- Familiarity with Linux and a good understanding of networks, server services, and distributed systems is a plus
- A keen interest in continuous professional development
- Good written and spoken German and English skills

## #REWARD

Anexia grew up as a family, and with our growth strategy, we intend to keep it that way. We like to take responsibility, respect one another, and we know that we can achieve whatever we put our minds to. We look after Anexia, and Anexia looks after us. Enthusiasm, experience, and competence count, so you can expect a fair salary and numerous benefits.

### salary range

### Our benefits

We are more than just a workplace. Therefore, we offer our employees many benefits (which partly depend on your position and location): good transport connections and flexible working hours. Period. Not to mention further training, a mentoring program, free parking, a mobile phone and notebook, snacks and drinks, company cars, employee events, a fun corner, ...
