

+ BE YOURSELF – BECAUSE THAT’S HOW WE WANT YOU TO +

At Anexia, we take responsibility for all the **challenges of the digital world** – each and every day. That’s because we see ourselves as the **“Digital Transformation Engine”**. And how do we succeed in this mission? It’s simple. We are a family of facilitators with innovative ideas. We’re capable of, want to, and allowed to make things happen. That’s what makes us so unique! Do you want to be a part of our digital revolution and make history with us? **#joinourrevolution**

IT SOLUTION ARCHITECT (CLOUD, HYBRID, INFRASTRUCTURE, ETC.) (M/W/D)

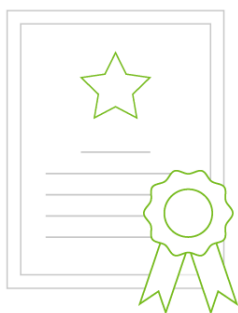

Vienna, Klagenfurt, Graz, Remote | full time

As a Solutions Architect, you are the technical bridge between our sales teams and our customers' needs — you translate complex IT requirements into concrete, actionable solutions, making the difference between a good conversation and a won deal. If you combine technical depth with strong communication skills and want to build solutions rather than just advise, you've found the right place.

#PROFILE

- Design of individual cloud and hybrid architectures based on the Anexia portfolio: Virtual Data Center, Managed Hosting, Colocation and customized IT solutions
- Identification of the optimal combination of on-premises infrastructure and cloud services, including tailored sizing and cost-efficiency analysis
- End-to-end support throughout the presales process: from requirements gathering and technical workshops to compelling customer proposal presentations
- Creation of technical concepts, architecture diagrams and solution documentation as a basis for customer offers and internal alignment
- Close collaboration with Sales, Service Owners and Technical Teams, with direct incorporation of customer feedback into solution refinement

#WANTED

- Completed technical degree (university, FH, HTL) or equivalent experience
- Experience in designing IaaS solutions: virtual servers, storage, networking and firewalling
- Solid knowledge of Linux and Windows server administration
- Experience with virtualization technologies such as KVM and VMware
- Understanding of common network topologies: VLANs, load balancing, DDoS protection and Anycast
- Experience with hybrid cloud scenarios, cloud connect solutions and Infrastructure-as-Code
- Experience with managed database or Kubernetes environments and understanding of backup and disaster recovery concepts
- Excellent communication skills and a strong customer focus with a genuine passion for solving complex challenges
- Hands-on approach and ability to work independently
- Fluent in German and English, both written and spoken

#REWARD

Anexia grew up as a family, and with our growth strategy, we intend to keep it that way. We like to take responsibility, respect one another, and we know that we can achieve whatever we put our minds to. We look after Anexia, and Anexia looks after us. Enthusiasm, experience, and competence count, so you can expect a fair salary and numerous benefits.

salary range

min. 63.000€

Our benefits

We are more than just a workplace. Therefore, we offer our employees many benefits (which partly depend on your position and location): good transport connections and flexible working hours. Period. Not to mention further training, a mentoring program, free parking, a mobile phone and notebook, snacks and drinks, company cars, employee events, a fun corner, ...
