+ BE YOURSELF – BECAUSE THAT'S HOW WE WANT YOU TO +

At Anexia, we take responsibility for all the **challenges of the digital world** – each and every day. That's because we see ourselves as the **"Digital Transformation Engine".** And how do we succeed in this mission? It's simple. We are a family of facilitators with innovative ideas. We're capable of, want to, and allowed to make things happen. That's what makes us so unique! Do you want to be a part of our digital revolution and make history with us? **#joinourrevolution**

SOFTWARE DEVELOPER (C#/.NET) IN OPERATIONS RESEARCH (M/W/D)

Klagenfurt, Vienna, Graz | full time

Tired of spending endless hours working on the same old legacy code? At Anexia, we develop modern C#/.NET-based business applications that help our customers solve complex optimization and planning challenges in the railway, logistics, and transportation sectors.

#PROFILE

- Developing solutions for high-end software projects that help companies and organizations work more efficiently, sustainably, and in a data-driven way
- Implementing complex field-specific logic and algorithms in high-performance, easy-to-maintain software systems
- Collaborating with project management and different departments on projects, from business analysis and design to application architecture, implementation, and release
- Depending on your interests, you will also be involved in data-driven or AI-related use cases

#WANTED

- Strong knowledge of C# /.NET and experience implementing complex business logic

- Completed technical education (HTL, university, etc.) with a focus on software development, or several years of relevant professional experience

- Experience in developing REST services / APIs

- Experience with or interest in cloud technologies, particularly Microsoft Azure

- Ability to translate complex requirements into algorithms, data structures, and software designs

- Proficiency in version control (Git) as well as testing and quality standards (test strategies, CI/CD, code reviews)

- Experience in business analysis and structured problem solving

- Knowledge of mathematical optimization, scheduling, routing, and search algorithms is an advantage

- Very good German and good English skills, both written and spoken

---

#REWARD

Anexia grew up as a family, and with our growth strategy, we intend to keep it that way. We like to take responsibility, respect one another, and we know that we can achieve whatever we put our minds to. We look after Anexia, and Anexia looks after us. Enthusiasm, experience, and competence count, so you can expect a fair salary and numerous benefits.

salary range

min. 54.000€

Our benefits

We are more than just a workplace. Therefore, we offer our employees many benefits (which partly depend on your position and location): good transport connections and flexible working hours. Period. Not to mention further training, a mentoring program, free parking, a mobile phone and notebook, snacks and drinks, company cars, employee events, a fun corner, ...
