## + BE YOURSELF – BECAUSE THAT'S HOW WE WANT YOU TO +

At Anexia, we take responsibility for all the **challenges of the digital world** – each and every day. That's because we see ourselves as the **“Digital Transformation Engine”**. And how do we succeed in this mission? It's simple. We are a family of facilitators with innovative ideas. We're capable of, want to, and allowed to make things happen. That's what makes us so unique! Do you want to be a part of our digital revolution and make history with us? **#joinourrevolution**

## KUBERNETES LEAD DEVELOPER (M/W/D)

**Wien, Graz, Klagenfurt, Karlsruhe, Remote | full time**

Are you an experienced Kubernetes Developer with a strong operator mindset and a passion for scalable cloud and platform solutions? Do you enjoy taking technical ownership, making well-founded architectural decisions, and driving topics forward independently, with quality, stability, and sustainable solutions as your top priorities? If you want to not only build complex systems but also operate, evolve, and improve them over the long term, you are exactly right for us.

### #PROFILE

- Technical end-to-end responsibility for the further development and scaling of a Kubernetes-as-a-Service platform for Anexia customers
- Lead role in the development and operation of highly available Kubernetes clusters, including design, review, and quality assurance
- Establishment and continuous improvement of CI/CD and GitOps standards, in particular using GitLab and Flux, across multiple teams
- Strategic advancement of the managed Kubernetes service, including roadmap definition, technical decision-making, and evaluation of new technologies
- Design and implementation of complex Kubernetes controllers and operators, for example to automate control planes and customer clusters
- Responsibility for the stability, security, and performance of the platform in day-to-day operations
- Mentoring and technical leadership of engineers through code

## #WANTED

---

- Several years of professional experience as a Kubernetes Developer, Tech Lead, or in a comparable role
- Extensive hands-on experience with Kubernetes, including architecture, internals, operations, and troubleshooting
- Very strong Go skills, ideally in the context of Kubernetes controllers and operators
- Experience with Infrastructure as Code using Terraform and configuration management with Ansible is a plus
- Deep Linux expertise and a strong understanding of networking, distributed systems, and cloud infrastructures
- Experience in technical leadership, decision-making, and ownership of code quality and architecture
- Very good German and English skills, written and spoken

---

## #REWARD

---

Anexia grew up as a family, and with our growth strategy, we intend to keep it that way. We like to take responsibility, respect one another, and we know that we can achieve whatever we put our minds to. We look after Anexia, and Anexia looks after us. Enthusiasm, experience, and competence count, so you can expect a fair salary and numerous benefits.

### salary range

### Our benefits

We are more than just a workplace. Therefore, we offer our employees many benefits (which partly depend on your position and location): good transport connections and flexible working hours. Period. Not to mention further training, a mentoring program, free parking, a mobile phone and notebook, snacks and drinks, company cars, employee events, a fun corner, ...
