+ BE YOURSELF – THAT'S HOW WE WANT YOU TO BE +

At Anexia, we take responsibility for all the **challenges of the digital world** – each and every day. That's because we see ourselves as the **"Digital Transformation Engine".** And how do we succeed in this mission? It's simple. We are a family of facilitators with innovative ideas. We're capable of, want to, and allowed to make things happen. That's what makes us so unique! Do you want to be a part of our digital revolution and make history with us? **#joinourrevolution**

SOFTWARE DEVELOPER PHP – NETWORK AUTOMATION (M/W/D)

Vienna, Klagenfurt, Graz, Karlsruhe, Nuremberg, Remote | full time

You are passionate and enthusiastic about innovative technology. You are committed, enjoy working independently and have a high level of quality awareness. Then this is the right position for you.

#PROFILE

- Working on complex tasks related to the **automation of our network-intensive services**
- You can see yourself working in one or more of the following areas:
  - **Frontend development**
    On the Anexia Engine, with a special focus on the network-centric services
  - **Backend development**
    - Management and self-service deployment of network resources (IP space, VLANs, VXLAN, VRF resources) for our more than 100 locations worldwide
    - Switchport automation
    - Templating, rendering and deployment of the configuration of network components in a multi-vendor environment (e.g. Juniper, Arista, Fortinet, etc.)
  - **Further development**
    Design and requirements engineering for new features in

collaboration with various business stakeholders and our Network Operations, Network Delivery and Network Security teams

We use these technologies:
Backend

- PHP 8.2
- Phalcon
- Doctrine, MariaDB
- Codeception

Integration

- REST APIs
- Netconf
- gRPC/gNMI

Frontend

- VUE, JavaScript

Project management and documentation

- Jira and Confluence

Source code versioning, build and deploy

- Gitlab, Gitlab CI/CD

Development environment (IDE)

- PhpStorm

Test system

- Bash, Ansible, Docker

#WANTED

—

- Experience with PHP development and object-oriented programming (OOP) in modular projects within containerized environments
- Ideally, experience in network operations

- Proficiency in SQL and ORMs
- Solid proficiency with REST APIs and JSON
- Knowledge of frameworks such as Laravel and Phalcon is a plus
- Understanding of UX design and workflows
- You have an easy grasp of technical concepts
- Excellent written and spoken German and English skills

#REWARD

Anexia grew up as a family, and with our growth strategy, we intend to keep it that way. We like to take responsibility, respect one another, and we know that we can achieve whatever we put our minds to. We look after Anexia, and Anexia looks after us. Enthusiasm, experience, and competence count, so you can expect a fair salary and numerous benefits.

salary range

min. 45.738€

Our benefits

We are more than just a workplace. Therefore, we offer our employees many benefits (which partly depend on your position and location): good transport connections and flexible working hours. Period. Not to mention further training, a mentoring program, free parking, a mobile phone and notebook, snacks and drinks, company cars, employee events, a fun corner, ...
